

TECH HUNTER - MENA

Website Content

By: Ohood Razeq

Welcome To Tech Hunters:

Think of Tech Hunters as a free assistant that you send out into the technology world garage to find the right tool for the problem you are trying to solve in your business thus saving your time and frustration, No matter what sector you work in.

What Is Tech Hunter?

Tech Hunters is a technology matchmaking service that is designed to benefit both customers with unique problems as well as that of innovators that have created industry changing technologies.

We play a significant role in leading projects, ideas, technologies, inventions and link them with the companies/sectors to become reality.

We offer a detailed understanding of the potential Artificial intelligence (AI) and other machine learning solutions can have for your business and hiring it to Reduce operational cost, increase profitability and improve customer experience.

Commented [MA1]: We are not only AI , we have to be more general (new technology)

Tech Hunter Professionals, We are keen in adopting, integrating and Sustainable.

Our Purpose (Mission):

Tech hunter was established for one reason... To bring technology innovators and the people who need their solutions together. Our passion for new technology and innovation within the industrial market place is never ending. Whether you are a technology innovator trying to get your products in front of the right customers, or a technology seeker trying to find a technology that will make an impact on your business, Let our team of technical sourcing professionals help you navigate through the noise and find the right match for everyone.

We facilitate the latest technologies and make them more accessible and useful for the MENA region, in order to enhance people's prosperity and resource sustainability.

Our mission is to help our clients create such high levels of value that together we set new standards of excellence in our respective industries.

Bringing Technology Innovators and Technology Seekers Together.

Commented [MA2]: To be in the top.

Our Vision:

Be the place where aspiration meets technical innovation, candor fuels collaboration and impossible surrenders to teamwork.

We champion the bold to achieve the extraordinary.

We seek to be the number one technical partner in the UAE.

Commented [MA3]: MENA not UAE --- (ALSO to be in the top)

Our Approach:

Innovative technologies may serve as the engine of a digital, technical transformation, but they aren't the entire story. Real transformation has to begin with a clearly defined digital technical strategy, one that can produce gains today and delineate a fast yet flexible path to the technical digital future.

Our technical approach helps clients overcome the odds by predicting, measuring and managing the risk associated with change from day one. The results: a proven method to structure, orchestrate and enable the changes necessary to achieve a competitive advantage.

We have developed an end-to-end approach to transform your digital enterprise:

- **Digital strategy:** understand the digital trends and innovations that will shape your industry five, ten and even twenty years from now. Achieve real gains today as you build toward your ideal future state.
- **Business model:** Use digital, technical innovation to satisfy your customers' raw needs in new ways, and to drive out costs and boost efficiency.
- **Enablers:** power your transformation with new data and technology capabilities, and develop the talent and culture to support a truly digital organization.
- **Delivery:** effectively orchestrate the many components of sustained transformation, moving quickly from pilots to fully scaled deployment.

What Makes Tech Hunter Different:

An insurgent mindset: We work with ambitious clients who want to define the future, not hide from it. Together, we define a bold ambition and achieve extraordinary results that redefine industries.

Integrated innovation: We deliver integrated solutions, complementing our capabilities with a curated ecosystem of the world's leading innovators to achieve better, faster, more enduring results for clients.

A uniquely collaborative culture: It feels different to work with us because our people are unlike any other. We bring a fresh perspective, mutual trust and infectious energy to every client relationship.

What We Believe:

We believe that bold steps define the future. That the ambition to lead requires the courage to adapt. And that doing the right thing is rarely easy, but always worth it.

What To Expect:

- **Data:** custom data to support a robust analytics capability.
- **Tools:** powerful digital tools enhance efficiency and generate new insight.
- **Technology:** best-of-breed solutions boost your operational efficiency and accelerate results.
- **Thought leadership:** industry associations, foundations, and other groups contribute fresh perspectives and insights.

Commented [MA4]: Lets do 2 sections
1) If you are technology provider
2) If you are looking for technology

What Problem We Solve:

At **Tech Hunter** we are very passionate about solving real-life problems in ways that add value in an intuitive manner, by being part of implementing easy-to-use flexible solutions:

- Some tech-companies face challenges expanding out from the local range at their early stages; such as financial and resource challenges.
- Technology providers may face some challenges in understanding market requirements sometimes because of social & environmental factors.
- Networking challenges between innovators, researchers and potential investors may happen.

What We Do:

We help you see the world differently, discover opportunities you may never have imagined and achieve results that bridge what is with what can be

- Search for new technology.
- Analyze technology and market needs.
- Link technology providers with potential clients Enable technology.
- Test new technologies and concepts in the region.
- Link students, researchers, and institutions with technology innovators.

Targeted Technology:

- Smart Technologies
- Environment, Energy, Urban Farming .etc.
- . Educational Sector
- Health Sector

Our Team:

Our network of technology professionals have a wide range of expertise across multiple disciplines, and they work diligently to bring the best technology innovations in the world and the problems they were designed to solve together allowing them to do what they were designed to do... Help people.
