ORGANIZATION OVERVIEW

STARTUP LEX was born as a result of a common vision of three different minds. All the demarcated yet connected areas of digital technology are something we have as the middle ground whereby we understand what our clients require. We take great interest in understanding your business.

JOB OVERVIEW

A web developer is responsible for the creation and maintenance of website experiences. They take technical specifications and requirements and translate them into websites which meet the needs of the organisation and of the website visitor.

A developer can be exclusively front-end (the images, visuals and applications of a website), exclusively back-end (the coding and functionality that make a site work) or full-stack, which involves all aspects of web development.

KEY RESPONSIBILITIES AND DUTIES

- Developing front end website architecture.
- Designing user interactions on web pages.
- Developing back end website applications.
- Creating servers and databases for functionality.
- Ensuring cross-platform optimization for mobile phones.
- Ensuring responsiveness of applications.
- Working alongside graphic designers for web design features.
- Seeing through a project from conception to finished product.
- Designing and developing APIs.
- Writing clean code for the front and back end of the software
- Meeting both technical and consumer needs.
- Staying abreast of developments in web applications and programming languages.
- Develop eCommerce stores in wordpress

ORGANISATIONAL RELATIONSHIPS

Internal stakeholder: Company management, sales and marketing team, finance team.

External stakeholder: Customers, local community, government agencies.

KEY SELCTION CRITERIA

- Degree in Computer Science.
- Strong organisational and project management skills.
- Proven experience as a Full Stack Developer or similar role
- Proficiency with fundamental front end languages such as HTML, CSS and JavaScript.
- Familiarity with JavaScript frameworks such as Angular JS, React and Amber.
- Proficiency with server side languages such as ReactJs, PHP and Python.
- Familiarity with database technology such as MySQL, Oracle and MongoDB.
- Excellent verbal communication skills.
- Good problem solving skills. Attention to detail.
- Have optional experience 4+
- Proficiency in English
- Having a driving license is desirable.
- Proof of eligibility to work in UAE is required

ACKNOWLEDGEMENT

I, Felix Otieno Ogundha, have read and accept the Position Description as stated above. I acknowledge the description of the position is an outline and guide to the duties of the professional activities needed to undertake the position successfully. I understand that a review of the position description may occur, and it may be amended from time to time as organizational needs change. Changes to the position description will be consistent with the purpose for which the position was established
